THE DOUGLASS PLATFORM.

The Republican party of Douglas county, represented through its chosen delegates, assembled in Convention, most heartily approves and fully endorses the platform adopted by the Republican State Convention and will devote itself to the maintenance and support of the sentiments and doctrines therein pronounced.

We have now experienced nearly two years of Democratic rule, with results that cause the Democrats to distrust not only the ability of their party leaders, but even the party itself, and that cause Republicans to cling more tenaciously to the conviction that the Republican party is pre-eminently the party for the times, and is better fitted and better prepared than any other to successfully administer the affairs of this great na-

Nevada beholds the great Democratic foot placed upon the neck of its silver producing interests; its Mint—the pride of its capital—standing grim and somber, with closed doors and cobwebbed windows, like a deserted castle of old, a fitting monument to exhibit to our people of the great advantages to derive from a change of Administration. Its mail facilities crippled and disabled so that a large proportion of our popula-tion (Democrats as well as Republicans) are no longer able to transact business as formerly, and are even denied the enjoyment of that one great blessing, the Daily Newspaper. And we condemn the action of those Democratic officials who have brought about this state of affairs, and the inaction of our Democratic

Senator who silently permitted it.

We are proud of the official acts of and the brilliant records made in Congress by our Senator, the Hon. J. P. Jones, and our Congressman, the Hon. William Woodburn, and we believe the welfare of this State as well as of the whole country, demands Mr. Woodburn's return, that he may successfully carry out the good work he has already begun, and we also cheerfully endorse the nominations made by our State Convention, believing that the very able gentleman selected ought to be sufficient guaranty of success for the whole Republican ticket.

We are unqualifiedly in favor of all honorable measures tending towards the exclusion of Chinese from our county believing that the condition of the la boring classes of our own people will be greatly benefited thereby.

Resolved, That we are decidedly op-posed to consolidating, annexing or joining our county or any portion there-of with any other county of this State for any purpose whatsoever, except for judicial purposes alone. Therefore, we solemnly pledge the Legislative nominees of this convention to strenuously oppose any and all bills, acts, schemes or measures or efforts having such end in view, or in any way tending to such a

Resolved, That we favor the immediate repeal of that obnoxious law known as the Anti Treat Act.

Roselved, That we are in favor of immediate action by the Legislature providing for the payment per diem and milage to all jurors summoned in criminal cases.

Resolved, That we favor the repeal of the Act approved March 4, 1885, makone Judicial District of this and providing for three Judges therein.

Resolved, That we favor the most rigid economy in the affairs of our county, consistent with the proper government thereof.

Resolved, That we believe that every county should provide sufficient public roads to meet the requirements of its taxpayers, and that such roads should always be in a condition to ensure safe travel by night or day. We therefore pledge our nominees for the office of County Commissioner to give this matter their special attention.

Resolved, That we particularly reiterate plank eleven of our State Platform and the cogent reasoning so ably expressed therein, and declare that we are in favor of the free and unlimited coinage of the gold and silver products of our mines, that the busy delvers after Earth's hidden treasures may meet with the encouragement that formerly greeted them under a Republican Administra-

Resolved, That we are in favor of a reduction in the salary of our County Auditor and Recorder (to take effect January 1889), and of an increase in the salary of our County Treasurer, and in favor of having our County Clerk paid a reasonable salary (say of one thousand dollars) per year, in lieu of fees. And our Legislative nominees are instructed to procure the passage of an Act making

such change.

Resolved, That the members of this
Convention do pledge themselves to the support of the entire county ticket this day nominated.

Resolved, That we are desirous of being again represented in the United States Senate by that able gentleman and worthy exponent of Nevada's interest, the Hon. Wm. M. Stewart, and our Legislative nominees will govern themselves accordingly.

REPUBLICAN STATE PLAT-FORM.

The Republicans of Mevada, in convention assembled, reaffirm their unfaltering loyalty to the principles of the party as enumeraised in their national platforms, from Limonin to Blains. We believe that liberty is the inalier able right, of every man, whatever his race or celer, and in the equality of every man before the law, with the unrestricted right of every citizen to cast his vote for whomsoever he concess, with the assurance that it will be counted as cast. The preservation of the Union and free government are now recorded in his story as the work of the Republican party. Union, liberty, equality and a protective sarrif have largely contributed in making \$,000,000 of people the best fed, the best clothed, the happiest, the most intelligent and powerful that ever aristed on earth. The cievation of labor the workers in our mines and the applican party has opened to free map and free labor every acre of lead within the jurisdiction of the united States, and has enabled the telling millions of the North and of the South to associate in one common brotherhood for the protection of their nitellectual and masterial prospective.

II.

We arraign the Democratic administration of President Oleveland for having failed to keep the pledges on which it came into power. It premised economy and retreachment, and has been most extravagnat in expenditures and apprepriations, which, for the current year, largely exceed the abundant revenues of the Governheit. It promised to reduce the surplus in the Treasury, but reversing the rule of previous Administrations, has permitted such surplus in the Treasury, but reversing the rule of previous Administrations, has permitted such surplus to lie idle and accumulate te the injury of the business of the country, and has retused te approve of the action of a farge majority of both Houses of Congress directing that such surplus be applied in payment of the interest-bearing debt of the country. It promised to care for and give attention to the disabled soldiers and sallors of the late war, and has treated with contemptuous vebe every pension bill against which it could find any, shadow of technical objection. It promised to present the person and property of citiaens hoth at home and abroad, and to maintain the dignity and know of the nation, yet in its relation with Great Britain it has shown itself any ample of the property of citiaens hoth at home and abroad, and to maintain the relation with Great Britain it has shown itself any any and anseemly action it has punnecessarily jeopardised our friendly relations with the bestreak Republic, and made our Nation ridiculous in the eyes of the world: its evasion of cityli service referm, to which its leading representatives are pleaged, have been bold, insolent and law and property of the public in the state in particular, and of the public in this finite in particular, and of the public in this finite in particular, and of the public in this finite in particular, and of the public in this finite in particular, and of the public in the overall of this people their rights by its maser. in the capital of this State. It has used the entire power of the Administration to destroy silver as money, and by a refusal te execute the law and pay out silver for Government dues has kept the metal out of circulation, and by various devices it has reduced the price of silver since the inauguration of President Cleveland more than fitteen per cent. It has closed many of our silver mines, and thrown thousands of honest laborers out of employment.

We favor a tariff upon the imported products of low-priced foreign laber, so as to pretect the interests of American wage-workers, and for the development of American industries. We demand in behalf of our mining interests the maintenance of the present tariff on lead, borax, sods and other mineral productions, and is behalf of our wool-growing interests a restoration of the wool bariff of 1807, and we denounce the recent attempt of the Democratic majority in the National Howse of Representatives to pass the Morrison bill reducing the tariff on the products of our mines and placing wool on the free list.

IV.

We believe in American soil for American

We believe in American soil for American citizens, and are opposed to non-resident aliens becoming landowners. The public domain should be reserved as homesteads for actual settlers, and the accumulation of large tracts or hodies of land in the hands of corporations or individuals should be discourated, and in the case of land grants to railroad corporations where the corporations have falled to comply with the conditions of the grants the land should be forfeited to the General Government, and held for the benefit of actual settlers.

We favor the intelligent organization of labor for such worthy purposes as mutual aduotion and for the protection of their interests in all things relating to their walfare and to the industrial welfare of the country, and we favor the enactment of State and Mational laws providing for the settlement of controversics between employers and employees by methods of voluntary arbitration, or by the establishment of courts of conciliation, which will avoid the waste, loss and ill-feeling resulting from strikes and lock-outs, and the usual expensa of litigation.

VI.

We denounce the action of the Democratic House of Representatives at its last session in striking from the bill to compensate the citi gens of this State for losses sustained in the Indian war of 1860 all claims for supplies fur nisked for the suppression of Indian host:littles, and also for services rendered during that memorable struggle in which the lives of a large, number of our most respected citizens were sacrificed.

the following words:

"Resolved that the House of Representatives earnestly sympathizes with Right Mon. Wm. E. Gladstone and his associates in their efforts to secure a free Parliament for the people of Ireiand, and congratulates the people of that hitherto unhappy country upon the prospect of an early and successful termination efficient long and patriotic struggle for the right of local self government."

Thereby destroying the growth of a libera spirit throughout Great Britain.

TIII. We commend the efforts of Senator Jones and Congressman Woodburn in obtaining an appropriation of \$30,000 for public land surveys in this Siste, and we condemn the action of the Commissioner of the General Land Office in wi sholding moneys appropriated for that purpose, and particularly condemn the action of senator Fair in absenting himself from Washington during all the time when appropriations for this State were under consideration by the Senate.

Senator Fair in absenting himself from Washington during all the time when appropriations to this State were under consideration by the Senate.

IX.

We endorse the action of Senator Jenes and Congress man Woodburn in their efforts to suppress polygamy in Utah, and to check the growth of disloyaity to the Government in that Territory, and we fully endorse the principles of the bills introduced for that purpose by Congressma Woodburn. We sendorse the action of the Republican Senate in passing in the early days of the last session of Congress the action of the Republican Senate in passing evil of polygamy, and check the growth of the bills passed by the United States. We condemn the action of the Democratic House of Representative in refusing during all the long session of Congress which has just closed to consider any measure tending to relieve our sountry from the blighting curse of polygamy and polygamous rule in Utah and the sarrounding Territories.

AMMEDMENT.

We believe it is the duty of the National Government to pass laws regulating the great railroad corporations of the country, protecting railroad corporations of the bill passed by the United States Senate, known as the Cullom bill, an

The paramount interest of civilization requires that the money used as a circulating medium is any country shall at all times beer a down in any country shall at all times beer a constant ratio to the increasing population of that country. Contraction of the currency involves all financial evilts to which a nation san be subjected, among which are robbery of the debter, stagnation of business, reduction of wages and the enlarement of the masses for the benefit of bondholders and grasping creditors. We denounce the bondholders conspiracy to demonetize silver and contract the money of the world to a single gold standard as a crime against civilization. It would double the obligation of bonds and all other contracts for the payment of money, which now aggregate in the civilized world the enermous sum of more than one hundred thousend million dollars, and thereby make the rich richer and the poor poorer, and impoverish the masses for the benefit of the favored few. We are, therefore, in favor of the free and unlimited coinage of both gold and silver upon the basis now provided by Law.

We condemn the Democratic House of Representatives for refusing to make the recessary appropriations for the construction of a suitable navy for the defense of our commerce and the protection of our citizens at home and abroad, and we particularly condemn it for refusing to make any appropriation for fortifications to protect our extensive seasonst while there was a vest surplus in the Treasury, and thousands of laborers out of employment.

We again declare our constant sympathy with the just and consistent Republican policy and practice of granting out of the nation's abund ance generous pansions to the disabled veterans of our wars, whether for the country's defanse or for the preservation of the Union. We protest against the removal from offisial places worthy and disabled Union soldiers to make way for partisan civilians and ex-Confederates. XIII.

It is the duty of this State to maintain free schools, not only in towns and thickly populated sections, but in the rural and sparsely settled districts, and as the education of pupils in the sparsely settled sections of the State is necessarily more expensive per capita than where a large number of pupils can attend the same school, such a division of the school money should be made as will furnish the means of education to all children in the State.

XVI XVI.

Expenditures beyond the means of private individuals are required for surveys, engineering and the construction of reservoirs, canals and other hydraulic works, for the purpose of irrigation in this state. We, therefore, favor liberal appropriations by Congress for surveys, both hydrographical and topographical, to secretain how the waters of this State, which new rem to waste in flood time, may be stored and atilized for the purpose of agriculturs, to the end that when all the facts are known, suitable aid may be obtained from Congress to enable the Government of the United States to dispose of its lands, and to enable the people be settle upon and cocupy the same.

Resolved. That two years' experience has demonstrated that the present july law, which compels officens, at their own expense, without regard to their pecuniary ability or the lesses they may suffer, summarily to suspend their assal occupations, break their business engagements, travel long distances and remain from their hems fer an anoertoin period, and steend upon District Courts as jurymen, is a measure of unwise economy, often productive of great hardship and an unjust imposition of public burdens upon private individuals. We, therefore, demand of the next Legislature such legislaties as shall secure to all citizens fair compensation for all the time which they spend and full reimbursament for all expenses which they lacur in performing the duties of jurymen in the District Court.

Resolved, That our able Representative in Congress, she Hon. Will iam Woodhurn, deserves the united thanks of the people of this State for his constant real and watchful care over the true interests of the people of this state, and that we recognize in him an able statesman, a faithful Representative and an honest man, and we say: "Well done, then good and faithful servant; renewed honers await thee."

DEMOGRALIC STATE PLAT-FORM.

Pirst—The Democratic party of the State of Newada, through its representatives in convention assembled, at Elko, on the 9th day of Eeptember, 1886, re-affirming its hearty indersement of the deciration of principles adopted by the National Democratic party at the city of Chicago in 1984, among which, upon the question of coinage and carrency, are the following plain statements of Democratic faith and the principles upon which the party appealed to the suffrages of the people of the several States in the late Presidential campaign.

"We believe in honest money—the gold and silver coinage of the Constitution, and a circulating medium convertible into such money without loss."

We therefore d mand that good faith shall be observed with the people by the Democratic Administration by religiously adhering to the money plank, as it does to every other plank of the Chicago platform.

predecessors and the policy of the Hepublican party en the silver question, in disregard of the cherished principles of the National Demoratic party.

Third—We demand of the Administration, at Washingten, that it shall second the efforts of the Democratic Representatives in Congress to give the people free coinage of silver, notwithstanding the fermidable combination existing between the gold rings, National Banks and the National Republican party to maintain the single gold standard. The action of the Republican party in California in refusing to insert a silver plank in their platform deserves the condemnation of the silver-producing people of the mining regions of the Facific Coast. Fourth—We indorse the policy of applying the surplus in the National Treasury, as fast as it may accumulate, to the payment of the National debt, retiring as rapidly as practicable the National Bank circulation, and the direct issue by the National Government of legal tender Treasury notes, gold and silver coin and coin certiceates.

Enfith—We arraign the Republican party before the bar of an enlightened public opinion for its high orime committed against the pablic passes, and against the best interests of the white laboring classes of both sexes, by its inviting and encouraging the influx of Asiatic hordes to our silvers under treaty stipulations and under the crazy shibboleth of "The Fatherhood of Ged and the Brotherhood of Man," until there are planted among the people of the Pacific States and Territories, like so many lesenes suching the life-blood of our substance, 180,000 Chinese colless.

PARKER'S NEW MAP OF NEVADA.

THIS NEW AND PRAYETTURE

Has Just Boon Published, and is Now Roady for Sale.

It has been completed with good core in order to insure its being strictly correct, and furnishes a vest fend of valuable information regarding the topography of the State. There never has been a Map of the State prepared heretofore worthy of the name, and it is intended to fill a long-felt want on the part of estisens. It has been lithographed at large expense by the famess publishing house of Rand, McNally & Co, of Chicage, and does great eredit to their well-known skill in the art. The Map is drawn on a scale of 12 miles to the inch, and shows all surveyed Townships up to date of issue, also all Mountam Ranges, Valleys, Rivers, Creeks, Brooks, Streams and Lakes; it also shows the correct position of all Indian and Military Reservations, and all Cities, Towns and Sattlements; also all Railroads and the principal Wagon Roads. The County Boundaries are also depicted with absolute correctness, which is something that no other Map has even approximated to.

The Map is printed on the best of paper, and mounted with stick, top and bottom, with tape on edges and varnished; it is also printed on thin, strong paper, which folds up in stout covers for pocket form. The Counties are printed with different colors, making it altogether an ornament to any school house, office, saloon or private room, as

well as valuable for instruction and reference. The Map has been compiled by John W. Parker, the Chief Draughtsman of the United States Surveyor-General's Office at Reno, who holds the copyright, and is the condensation of all information on file in that office, as well as the celebrated War Department Maps prepared by Lieutenant Wheeler; he has also had at his command other recent and reliable data on which to rely, and the Map is issued to the public in the firm belief that it is in every way authentic.

The Price of the Map is \$5.00,

And copies will be sent to may address, postpaid, upon receipt of the money. Parties ordering will be earsful to state which style is desired-mounted or pocket form.

The Republicans of Washoe county, in convention assembled, present the following de-elaration of principles and purposes, and pledge themselves and the nominees of this Convention to their faithful and earnest sup-port and endorsement.

We denounce the attempt of the present administration to further restrict the ceinage of silver and change the measure of standard values from gold and silver to gold alone, as an act of monstrous injustice to the mining interests of our country, and demand that a double standard be established of both gold and silver, and be maintained as the basis of our money system as established by the Constitution of the United States.

We, as a party, are most emphatically op-posed to the further immigration of Chinese, believing them to be a class of laborers detri-mental to American institutions, and we are in favor of the legal expulsion of those with which the country is now afflicted.

We denounce the "sham" policy of retrenchment and reform as carried out by the present administration, and which has closed our Mini, cut down our mail routes, caused a cassation of public land surveys, and damaged the material interests of the State in such a manner, as to lead us to believe that the people of Nevada have been selected out for punishment because they had the courage to vote their convictions in the campaign of 1886. We are in favor of a home man for United States Senator, and our representatives to the Senate and Assembly are instructed to use all honorable means to elect a gautleman to that office whe is a Nevadan in heart, interests, used actual residence, instead of a man like Senator Fair, whose whole interest and residence are in California.

California. The present depressed condition of this State demands rigid economy in all public affairs and we require of the nominees of this Convention, and particularly those for Legislative offices an earnest effort to reduce the expenses of both the State and County "covernments, and to relieve the people of the present burdesseque and vexistions taxation.

Resolved, That gold and silver have been recognized as money from time immumerial, because each could be exchanged at the Mints of the civilized world for coin. Silver did not decline in market so long as the mints of any nation in Europe or America would receive it in exchange for money. We favor the farming for the free coinage of both gold and silver, and then free the free coinage of both gold and silver, and then free the free coinage of both gold and silver, and required. You are set in the free coinage of both gold and silver, and required. You are set in the free coinage of both gold and silver, and required. You are set in the free coinage of both gold and silver, and required. You are set in the free coinage of both gold and silver, and required. You are set in the first of the coinage of the co Hardware, Crockery, Pocket and Table Cutlery, Choice Wines, Liquors,

We endorse the earnest and able effects of Senator Jones and Congressman Woodburn to prevent the Administration from depriving the people of this State of their usual and necessary mail facilities, and their efforts to keep open our mint and to furnish the people of this State with the usual benefits arising from a fair and impartial administration of public affairs, and we particularly commend them for their able efforts to restore silver to its original place as money and to defeat the conspiracy of the bondholders to contract the world's money to the single gold standard and thereby double the obligations of contracts and indict upon the laboring masses such enormous burdens as to reduce them to a condition of slavery

Resolved, That we regret the failure of Senator Fair to co-operate with his colleages from this State in their efforts to restore silver to par and thereby revive silver mining in this litate and defeat the bondholders' conspiracy to demonetize that metal. It is unfortunate that Senator Fair's private business was so pressing as to require his absence from his seat in the Senate at all times when any question affecting the use of money has been discussed or voted upon, since he has been a member of the United States Senate Hutwhatever his private husiness or interest may have been, we cannot excuse his silence on the great issue with regard to silver, in which our State is so vitally interested, and which he was elected to fester and protect. We charge him with utter disregard of his auty to his constituents in failing to place on the records of the Senate his opinions upon this question. In all charity to him we hope he is not a bondholder, and therefore interested in the demonetization of of silver, and the destruction of silver mining in this State. of silver, and the destruction of silver mining in this State.

We favor the restoration of the Republican tariff on wool and the maintenance of the general features of the present protective tariff, and oppose free trade and the degradation of labor in this country which must result from competition with Europe and China if the Democratic dogma of free trade should be adopted.

The Republican party has done more to re-lieve the oppressed than any other power ever felt on earth and it cannot look without sym-pathy and earnest solicitude upon the efforts being made to airlye at a humane and honora-able solution of the questions that have se-lately been at issue between England and Ire-land.

We denounce the action of the Democratic House in refusing all expressions of sympathy with the Home Rule movement, while the Re-publican members always support such Reso nations
Resolved, That the Republican party has
ever stood as the friend of labor against all
who would either oppress or enslave it, and
every measure, either Biste or national, which
will protect the laborer from dangerous foreign
competition, or improve and dignify his condition, at home, will most with our unqualified
approval. Unswerving in our hostility to Anarchism, Socialism and Communism, we favor
such wise legislation as may insure that harmony which ought always to prevail between
the employer and the employe. We recognize
the right of all men by association to promote
their mutual good and protection in every way
that does not infringe upon the rights of
others
